WEDFA cannot assist retail projects.

Notes	<p> The biggest benefit to this type of financing is that the bank or bond purchaser does not have to pay income tax on the interest they earn on the investment. This means they are willing to accept a lower interest rate. WEDFA passes on the lower interest rate to the borrower, reducing the borrowing cost. </p> <p> This type of financing is available primarily to finance facilities for manufacturing businesses, nonprofit enterprises and recycling and waste disposal operations. In the 2015 interest rate environment, this financing tool can be beneficial to projects that are larger than \$2.5 million. </p> <p> WEDFA can also issue taxable bonds, making it possible to fund multi-purpose facilities in a single package. </p>
