**Fish Habitat Enhancement Project**

**Application Phase**

**Start**

**From HPA Permit Process**

- **Applicant desires approval through the Fish Habitat Enhancement exemption process**

**B**

- **Applicant submits JARPA form including Fish Enhancement Project Addition to WDFW and Local Government or completes online application using WDFW’s APPS program.**

**WDFW**

- **WDFW determines whether the project meets criteria for streamlined process**

  - **Does Not Qualify**
  - **Qualifies**

**C**

- **WDFW determines whether concerns can be mitigated in HPA**

  - **No**
  - **Yes**

**D**

- **Return to start of HPA Permit Process**

**Permit Issued**

**Review and Issuance Phase**

**Washington Department of Fish and Wildlife**

**Local Government provides comments about concerns to WDFW**

**Applicant desires approval through the Fish Habitat Enhancement exemption process**

**Public or other interested party**

**Legend:**

- **A** = Hyperlink
- **=** = Progression
- **=** = Revision
- **=** = Optional

Qualifying for the Streamlined Process for Fish Habitat Enhancement Project:

To qualify for the streamlined process for fish habitat enhancement you must check at least one each from A and B:

A) Projects must accomplish one or more of the following fish habitat restoration tasks:
   - Removal of human-made fish passage barriers; or
   - Restoration of an eroded or unstable stream bank using bioengineering techniques; or
   - Placement of woody debris or other in-stream structures that benefit naturally reproducing fish stocks.
   AND

B) Projects must also be approved in one or more of the following ways:
   - By WDFW, through the Salmon Enhancement, or Volunteer Cooperative Fish and Wildlife Enhancement Programs – Provide project name, and who at WDFW approved the project;
   - By the sponsor of a watershed restoration plan as provided in chapter 89.08RCW – Provide title and date of plan, and approving or sponsoring agency;
   - By the Department of Fish and Wildlife as a department-sponsored fish enhancement or restoration project;
   - Through the review and approval process for the Jobs for the Environment program;
   - Through the review and approval process for Conservation District sponsored projects, where the project complies with design standards established by the conservation commission through interagency agreement with the United States Fish and Wildlife Service and the Natural Resource Conservation Service – Provide approval date and name of Conservation District approving project; or
   - Through a formal grant program established by the legislature or the Department of Fish and Wildlife for fish habitat enhancement or restoration – Provide grant application date and circle status: Approved, Denied, or Pending.

HPA Streamlined Process for Fish Habitat Enhancement Project:

Applying for the Streamlined Process for Fish Habitat Enhancement Projects:

Submit on the same day a complete JARPAform and the cover addition as an application for the streamlined process for fish habitat enhancement to the Department of Fish and Wildlife (WDFW) and all applicable Local Government planning and permitting departments. Provide the following:

- name and number of habitat biologist at WDFW to whom you applied; and
- to what local government you applied.

- Apply for all other Federal and State permits needed as defined in the JARPA form.
- Fill in waters of the state will require a 404 permit from the Corps of Engineers and possibly a 401 Water Quality Certification from Ecology.

Link: [401 Water Quality Certification Permit Flowchart](http://www.rpj.wa.gov/site/alias__ResourceCenter/9983/jarpa_process.aspx)

The only work covered by the streamlined process must be for fish habitat enhancement. If only a portion of your project is for fish habitat enhancement, the full permitting process must cover the remainder of the project.
